

DPA 5 Quick Start

Not following these instructions could cause damage to your vehicle.

1. Download and Install the DPA 5 Software from www.dgtech.com/downloads.
2. Connect the screw lock USB and diagnostic connectors to the DPA hardware. The screw locks prevent accidental disconnects.
3. Connect the diagnostic cable to the diagnostic port in the vehicle.
4. Connect the USB cable to the computer.
5. Configure your applications to use the DPA. Refer to the [DPA 5 User's Manual](#) for detailed instructions.
