DPA DTaaS

Fleet Management Cost-Reduction Solutions

CYBERTECH CYBERGUARD

Pays for itself - and more!

- Reduces # of OEM Diagnostic App Licenses! (Saves Money)
- Keeps OEM Diagnostic Apps Up-To-Date! **(Protect your uptime!)**

DTaaS

- The industry's most cybersecure vehicle-to-cloud service!
- Includes DG's DPA XL vehicle adapter & laptop - we manage your diagnostics/reprogramming equipment & OEM diagnostic software licenses

Why DTaaS

- Your Fleet/Shop focus remains maintaining vehicles with minimal downtime!
- OEM diagnostic software is mixed: internet-based vs. PC-based
- DG manages all OEM diagnostic software license subscriptions, maintenance, renewals & PC conflicts
- One laptop for all of your OEM Diagnostic Application needs
 - Truck, Automotive, Construction, Ag & more!

DTaaS Details & Benefits

- DG negotiates best-price licensing for all OEM diagnostic licenses
- Automated equipment reports by district/region, shop, asset tag number
- Lower Operating Costs using DPA Health: Utilization
 - Reports your OEM diagnostic app and Laptop/DPA XL use
 - Reduces the number of expensive OEM diagnostic licenses and hardware required to efficiently run your Shop/Fleet
 - Easy-view color-coded identification of unused assets
 - Save Time: OEM Apps work the first time, everytime
 - OEM software version reports show up-to-date status

DTaaS Supported OEM

Diagnostic/Reprogramming Apps

- All TMC RP1210 Heavy-Duty & SAE J2534 Medium/Light-Duty vehicle apps
- Includes DG Diagnostics, our quick, easy & FREE diagnostic software

DG's Proven Experience & DTaaS Cost Savings

- DG has provided thousands of diagnostic adaptor/laptop kits & OEM diagnostic software licenses for over a decade
- Key customers include the U.S. Government/Military agencies and key State Departments of Transportation
