

# SECURE FIRMWARE SOLUTION

## User Guide

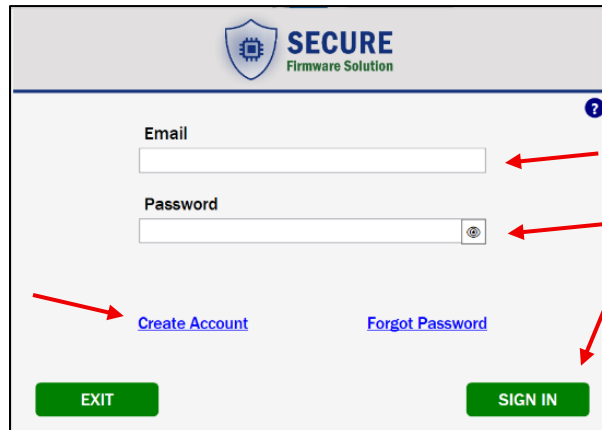

1. Download the latest drivers for the VSI NxGen PLUS from [www.dgtech.com/downloads](http://www.dgtech.com/downloads) or use “DG Update” from the Start>DGTech Utilities>DG Update. The drivers will include the Secure Firmware Solution application. Begin installation:

2. Once installed, locate the Secure Firmware Solution application. To locate:
  - a. Search for ‘Secure Firmware Solution’ on your Taskbar Search window, or
  - b. Go to: Start>DGTech VSI NxGen PLUS>Secure Firmware Solution
  - c. Open the application.

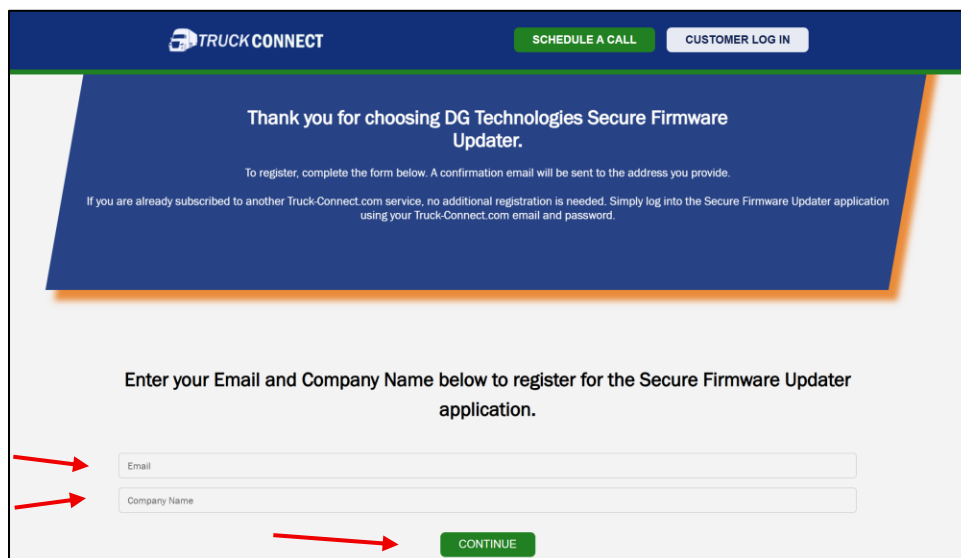

3. A Truck-Connect account is required for the VSI NxGen PLUS device.
  - a. If you already have a Truck-Connect account, enter that email and password, select “Sign In”, then skip to step 9.
  - b. To create a Truck-Connect account, select ‘Create Account’ link and proceed below.

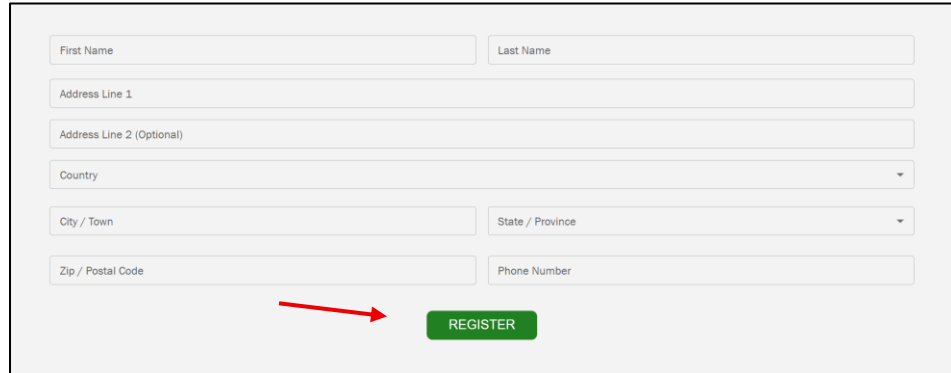

The image shows a login and registration form for the SECURE Firmware Solution. At the top, there is a header with the SECURE logo and the text "Firmware Solution". Below the header, there are two input fields: "Email" and "Password". To the right of the "Password" field is a small icon of a key. Below the input fields, there are two links: "Create Account" and "Forgot Password". At the bottom, there are two buttons: "EXIT" and "SIGN IN". Red arrows point to the "Email" field, the "Password" field, the "Create Account" link, and the "SIGN IN" button.

4. On the register page, enter your Email and Company Name, or the name associated with the email, and select ‘CONTINUE’.

The image shows a registration form for the TRUCK CONNECT service. At the top, there is a header with the TRUCK CONNECT logo and two buttons: "SCHEDULE A CALL" and "CUSTOMER LOG IN". Below the header, there is a blue banner with the text "Thank you for choosing DG Technologies Secure Firmware Updater." and a sub-header "Updater." Below the banner, there is a paragraph of text: "To register, complete the form below. A confirmation email will be sent to the address you provide. If you are already subscribed to another Truck.Connect.com service, no additional registration is needed. Simply log into the Secure Firmware Updater application using your Truck.Connect.com email and password." Below the text, there is a prompt: "Enter your Email and Company Name below to register for the Secure Firmware Updater application." Below the prompt, there are two input fields: "Email" and "Company Name". At the bottom, there is a "CONTINUE" button. Red arrows point to the "Email" field, the "Company Name" field, and the "CONTINUE" button.

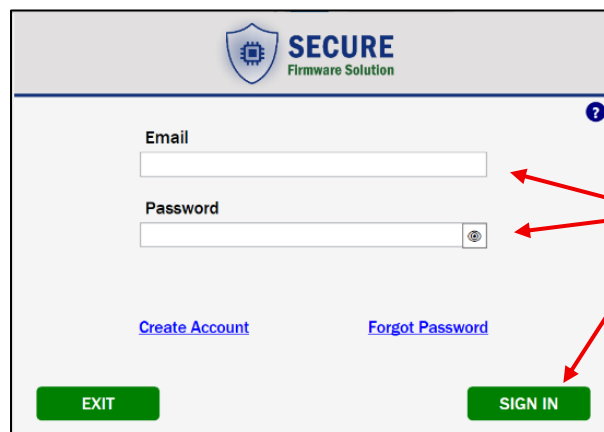

5. Enter the required information on the next page and select 'REGISTER'.

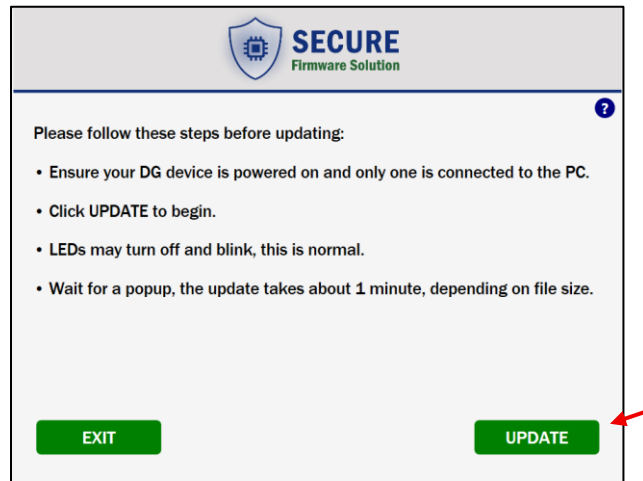

6. An email will be sent to the email provided with instructions regarding next steps to enable your account. Go back to the log in at Truck-Connect.com in steps 2 & 3, and input this temporary password provided.

Someone in your organization has invited you to join the Truck-Connect account. Please visit [www.truck-connect.com](http://www.truck-connect.com) to get started. Your username is [redacted] and temporary password is [redacted]

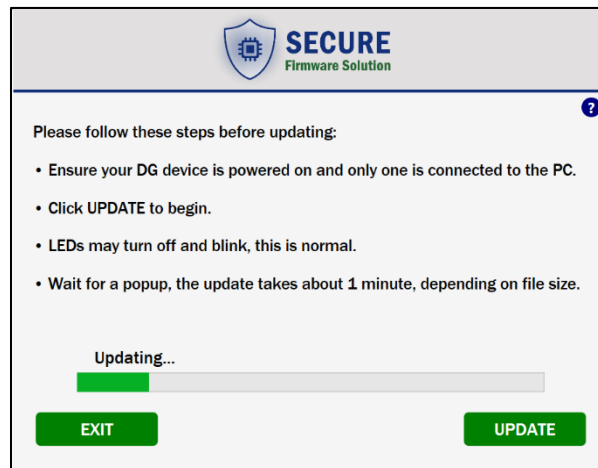

7. Once logged in, follow the steps on the ensuing screen to change your password. You are now registered with Truck-Connect.
8. Go back to the Secure Firmware Solution application, enter your credentials, and select 'SIGN IN'.

9. Follow the steps shown and select 'UPDATE' in the bottom right-hand corner to begin:

10. Once 'UPDATE' is selected, a progress bar will appear and show that the device update is in progress.

11. Once the message showing 'The device has been updated' appears. Select 'OK' and exit out of the application. Your device is now securely updated to the latest version.
